

**Qik**  
MEETING

World's Smartest Unified  
Business Communication &  
Collaboration App

Enterprise Deck

### Problem #1: Using Personal Communication Tools

Eg: 80% of employees still use personal chat tools like WhatsApp for basic communication.

### Problem #4: Sub-standard account usage of communication software

Eg: Most of the company uses video conferencing tools like Zoom but manage with 3 paid accounts for all employees

### Problem #2: In-person meeting apps don't exist

Eg: Employees do 150% more in-person meetings than online meetings but have no access to this data

## Solving 30 different communication and collaboration problems in 2023

### Problem #5: Data not organized inside and outside organization

Eg: Employees still use traditional notepads to store their notes & other communication data

### Problem #3: Minutes of Meetings don't exist

Eg: Most of the company has less than 10% of the meetings recorded and less than 1% have MoMs communicated manually.

**Qik Meeting**  
 A smarter unified business communication & collaboration app which can truly organize & automate work data increasing productivity by over 300%.

Nick: As per the research done and brainstorming session we have come up with key points on how we can develop on sales of our product. The details will be shared by Elsa.  
Elsa: Thank you Jeff. As per the research done, we have been focusing too much on local customers and their needs. But, the things we need to focus are:  
international customers  
cold calls  
advertising campaign  
social media campaign  
Andrew: Thank you Jeff and Elsa for the insights.  
We must finalise these on:  
International customers and cold calls by November 10th, 2022.  
Advertising campaign November 15th, 2022.  
Social media campaign November 21th, 2022.

# World's best unified work organizer

The screenshot displays the Qik workspace interface for 'Earning Designs Company - Enterprise'. The main view is a 'Core team' workspace with a list of rooms and a meeting room interface. Callouts highlight the following features:

- Multi company workspaces & rooms:** Points to the 'Rooms' section on the left sidebar.
- One-on-one rooms:** Points to the 'on-ones' section in the sidebar.
- Advanced meeting scheduler:** Points to the 'Schedule' button in the meeting room interface.
- Most organized chat:** Points to the chat list in the 'Core team' workspace.

The interface includes a search bar for 'Workspaces / Meeting Rooms', a sidebar with navigation options (Rooms, on-ones, Chats, Notes, To-dos, Files), and a meeting room view showing participants like Barbara Ann, Josh Joshua, Laurel Lance, and Salina Kyle.
